Description

The refuge was inaugurated in June 1929 with the name of "Rifugio Mondovì"; subsequently enlarged and restored, it was dedicated to the memory of Havis De Giorgio, a mountaineer from Monregalese who fell in 1939 in East Africa. The refuge was completely rebuilt in 2008.

The Havis De Giorgio Mondovì refuge is located near the sources of the Ellero river in a pleasant grassy basin surmounted by the Havis De Giorgio point and the Rocche del Pis, bold buttresses of the Cima delle Saline.
