Spread over two floors divided between the living area and the sleeping area for a total of 300 square meters. Harmoniously inserted in the context that surrounds it, it is covered in stone with a wooden roof.

The refuge is located under the rocky barricade of the Rocca dell'Arma, at the foot of Mount Madonna della Guardia and Mount Armetta. Thanks to its position it enjoys a unique context of its kind, being located just below the watershed with the Ligurian Alps. It dominates a large part of Western Liguria, from the mountains to the sea, with a view that on the clearest days reaches Tuscany, the Apuan Alps, and Corsica.
